

Experience?

No experience is preferred to participate in this workshop. All one needs is the desire to test their skills.

You are guaranteed to leave with a painting you can hang on your wall. All painting supplies will be provided in the workshop.

What is being taught?

The subject for each session is selected by its visual challenges. A wide range of subjects are presented for painting.

Interpreting distance, creating impressions of skies, water, landscape, light and shadow are the focus, as well as highlights and shadows to attain depth of field.

With the emphasis placed on the impression of highlight and shadows, the paintings take on a more realistic look.

The approach is to paint quickly, and not to labor on any one object. We focus on how to create shadows and how to make highlights, using combinations of various colors.

Winter Sessions begin in November for once a month on Saturdays, through April. Sign up: www.pamricedesign.com

En plein air is a French expression which means “in the open air” and is particularly used to describe the act of painting outdoors, which is also called *peinture sur le motif* (“painting of the object(s) or what the eye actually sees”) in French. In painting, “sur le motif” reproduces the actual visual conditions seen at the time of the painting.

Online Painting Workshops
